

TJA3 11/5 Meeting

Leader: Abhinay Devapatla

Tasks:

- Everyone work on their personal webpages
- Everyone rewrite a new list of requirements based off the customer interview
- Everyone start brainstorming for use case diagram

Summary:

This meeting was a short meeting to discuss the next steps of the project. We want to create a finish list of requirements based off of the customer interview. Abhinay tasked all members to create a new list of requirements by the end of the day Sunday. We then discussed the personal pages. The group members were a little confused on the requirements for the personal pages so it was decided that we should research this task on our own time and regroup for our meeting on Monday. Finally, we all decided it would be a good idea for members to brainstorm the use case diagram before the meeting Monday because that deadline is fast approaching.

Minutes: 15min 6:00-6:15
