

TJA3 11/14 Meeting

Lead: Abhinay Devapatla

Tasks:

- Gram: Critique and review the Use Case diagram and the Domain Model.
- Muxing: Draft the Use Case template and make sure all requirements are referenced.
- Eric: Continue adjusting the website and develop the prototype.
- Matt: Spell and grammar check all of our documents and inform the team when the customer responds.
- Abhinay: Draft up the SRS document and continue updating the requirements.

Summary:

This was a very short and to the point meeting. Everyone turned in their rough draft documents that were tasked to them in the past meeting to the discord. Abhinay then tasked members of the group with reviewing these documents. He then gave each person an individual task (listed above) before the next meeting. We then set the future meeting for Wednesday at 5:30 and we ended the meeting.

Minutes: 15min 6:00 - 6:15
