

## TJA3 11/2 Meeting

Leader: Abhinay Devapatla

### Task List:

- Abhinay must ask the customer questions during the interview
- Gram will take diligent notes on the customers responses to Abhinays questions

### Summary:

The meeting started with everyone sharing the questions that they came up with from Homework #6. We all then spent time filtering through them choosing which ones to add, which ones to remove and which ones to rework. A bulk of our time was spent rewording a lot of the questions to not be yes or no questions. We then spent time coming up with new questions to ask based off of the class on Tuesday. We agreed that it was best to keep the questions as simple and open as possible so we do not push any of our preconceived notions onto the customer. Once the question list was finished, we ended the meeting with Eric walking us though the website he created.

Minutes: 30min 5:00-5:30
